MENDOCINO LIGHTNING COMPLEX

Media Only Fire Information Number: 707-467-2520

Public Fire Information Number: 707-467-6426

The Mendocino Lightning Complex has consumed 52,700 acres and is 65% contained. There are 20 active fires. The large drop in the number of active fires today is due to the merge of fires on the incident. Continued threats remain a possibility to communities and critical infrastructure. Additional evacuation "Warnings" and/ or "Orders" may be issued. Active burning continues on several fires. Favorable weather conditions are predicted over the weekend and into next week. Firefighters will work to take advantage of the favorable weather conditions to make progress on fire containment. Planned firing operations will occur in the Mountain View Road area this evening. Residents are reminded that they may see increased fire and smoke in the areas of planned firing operations.

Air Operations

GIS (Geographic Information System) mapping operations are being conducted throughout Mendocino County. Residents may see low flying rotary aircraft for the purposes of mapping fire perimeters.

Numerous fixed wing and rotary aircraft continue to operate on the fires.
